

EXPAND ACCESSIBILITY OF MATERIAL THROUGH TRANSLATION

CLIENT:

EPA's Office of Ground Water and Drinking Water

the client to identify the appropriate dialect that will best reach the widest audience.

PROGRAM:

Water on Tap Guide, available in print and online.

ACTION:

People who may not read English are now able to learn about the important issues contained in the publication.

TARGET AUDIENCE:

People who speak Chinese as a primary language and may be interested in water quality issues.

REACH:

EPA provided The Track Group with an existing publication (Water on Tap). Track translated the text into Chinese and provided layout services in Chinese. As with other foreign languages, there are various options when performing the translation. Track will work with
